Profile

Holder of a Bachelor's degree in Software Engineering, I am a passionate Full-Stack Developer with a strong interest in building high-performance, scalable and intuitive applications. Curious, rigorous and creative, I develop end-to-end solutions: analysis, architecture, development, optimization and deployment.

Projects

OMPAY — Mobile Transfer & Payment Platform

Laravel, PostgreSQL, Laravel Passport, OpenAPI

Mobile payment platform: money transfers, merchant payments, OTP verification. API documentation generated using Swagger/OpenAPI.

GitHub : [ompay.git](#) | [Live Demo](#)

OMPAY CLI — Terminal Client for OMPAY API

Dart, Dio, GetIt, DotEnv

CLI interface to interact with OMPAY API: auth, transfer, payment.

GitHub : [OMPAY_DART.git](#)

OMPAY Flutter — Mobile Application (Orange Money Clone)

Flutter SDK 3.0+, Dart SDK 2.19+

Mobile app for transfers, balance inquiry, payments, transaction history. Replicates core features of Orange Money.

GitHub : [OMPAY_FLUTTER.git](#)

Ges-Compte — Banking REST API

Laravel, PostgreSQL, OAuth2, OpenAPI

Bank accounts, clients, transactions, Swagger documentation.

GitHub : [ges-compte.git](#)

TODO — Task Management System

Node.js, Express, TypeScript, Prisma

Auth, sharing, task history, multi-user.

GitHub : [TODO.git](#)

Fotoljay — Second-Hand Marketplace

Angular 17, Tailwind, Node.js, Prisma

Buy/sell products with mandatory image upload.

GitHub : [Fotoljay.git](#)

MAXIT — Money Transfer System

PHP, PostgreSQL, REST API

Transactions, Woyofal, microservices.

Ref: Birane Baila Wane — +221 77 766 95 95

GitHub

Whatsapp Clone — Web Messaging App

JavaScript, PostgreSQL

Real-time chat, responsive UI.

GitHub

Payroll Manager — Salary Payslip App

React, Node.js, Express, PostgreSQL

Salary management + PDF generation.

Ref: Ali Tall Niang — +221 77 182 54 14
